

Amol Shelke

Aspiring AI/ML Intern — BCA Graduate

 Amol-78 |  amol-shelke |  my portfolio |  shelkeamol078@gmail.com |  +7821815442

SUMMARY

BCA Graduate (2025) and aspiring Machine Learning Engineer with hands-on experience in Python, Machine Learning, Deep Learning, and NLP. Strengthened skills through internships in Data Analytics and Machine Learning, developing predictive models and managing data preprocessing workflows. Built projects leveraging NLP and Generative AI within end-to-end machine learning pipelines. Eager to contribute to innovative AI solutions as an ML/AI Intern.

EDUCATION

Bachelor of Computer Applications (BCA)	2022–2025	CGPA: 8.5
12th Science	2020–2022	74%

SKILLS

Programming: Python, SQL

AI/ML: Machine Learning, Deep Learning, NLP, Generative AI, LLMs, RAG

Libraries: NumPy, Pandas, Scikit-learn, TensorFlow, Keras, OpenCV

Data Analysis: EDA, Power BI, Excel

Tools: Streamlit, Docker, Git

WORK EXPERIENCE

Data Analytics Intern Aug 2025 – Sep 2025

TechnoHacks Solutions Pvt.Ltd

Performed data preprocessing, exploratory data analysis, and dashboard development using Power BI.

Machine Learning Intern Sep 2025 – Oct 2025

Cognifyz Technologies

Worked on end-to-end ML pipelines including preprocessing, model development, evaluation, and optimization.

PROJECTS

MedAI Assistant: Developed an AI-powered medical chatbot supporting symptom analysis, severity assessment, emergency detection, and automated medical report generation.

Agentic RAG Document QA System: Developed an intelligent document QA platform supporting document uploads, agentic retrieval, and context-aware answer generation

Automatic Number Plate Recognition (ANPR) System: Developed a real-time license plate recognition system supporting plate detection, OCR, and automated CSV logging..

California House Price Prediction: Built an end-to-end regression pipeline using Scikit-learn including preprocessing, feature engineering, model evaluation, and Docker deployment supporting single prediction and CSV batch prediction

Automatic EDA Application: Built an automated EDA application generating statistical insights, charts, and dashboards.
